6. Remarks and Other Relevant Information:

Town of Wilson Creek, Based on population in 50's & 60's our use was approximately 202 A.F. We have exercised the water right from the RR as part of our municipal system based on calculations of our ERU's (Equivalent Residential Unit). The proposed well addition listed in item 3A was purchased from the Great Northern Railway by the Town of Wilson Creek and was used for irrigation of lots in the Town. Irrigation water is now provided from Wells 1, 2, and 3. We believe we have perfected use of the town wells and RR well to serve our town's past, current and projected population for an additional 116 acre foot per year. We are aware of the use of RR wells in Sprague, Edwall and Washtucna where the RR deeds the well and water right to the local town.
